### A Material Difference.

USHROOMS are delightfully palatable and healthful, yet some species of Toadstools so closely resemble the toothsome Mushroom as to make it dangerous to experiment with uncertainties. And so it is with Castoria and its imitations. Keep the Castoria that bears the signature of Chas. II. Fletcher ever in your mind's eye as the Mushroom. And be as particular to remember the counterfeits, substitutes and "just as good" kind as the Toadstools. There may be a resemblance in the package, but the results obtained are so widely different as to make the signature of Chas. H. Fletcher the important feature when buying Castoria.

Why should not our preparation be superior to all other children's reme dies? Have not eminent physicians from the Atlantic to the Pacific testified to its perfection? Castoria that bears the signature of Chas. H. Fletcher is the acme of chemical art as applied to a child's
